

Blokkade fencing

'discrete, but ram-proof'

application

office parks
industrial sites
car dealers

series

Blokkade
Floriade

Looking for ram-proof fencing? But it should not hinder the open appearance of your property? Then choose Blokkade drive-through protection. With this discrete, only 60 cm high fencing you prevent burglary and escape attempts by motor vehicles. You always decide yourself who enters or leaves your property.

Alternative for guardrails

We once developed Blokkade for theft and vandalism high risk locations. Today we also apply this fencing where vehicles may cause damage to buildings or objects. Here they are an elegant alternative to guardrails.

Application

- car dealers
- caravan dealers
- parking areas
- industrial sites
